About Amber

Assistance with domestic and international patent portfolio management

Amber Zhang helps clients develop and manage their domestic and international patent portfolios, including preparing and prosecuting U.S. and foreign patent applications and conducting invalidity/non-infringement and freedom-to-operate analyses. With a background in materials science and engineering, her experience includes:

- **Materials science**
- **Semiconductors and consumer electronics**
- **Smartphone technology**
- **Mechanical engineering**
- **Medical devices**

Amber is committed to providing patent assistance that aligns with the client's business objectives and intellectual property (IP) strategies for both startups and large companies. She understands the challenges and opportunities that exist for companies of all sizes and works closely with her clients to tailor her services to their specific needs. Her familiarity with both the U.S. and China's patent systems provides her clients with a highly valued global perspective on creating and safeguarding their IP assets.
