## About Audrey

Patent assistance with an emphasis on electrical engineering

Audrey Jacobson assists clients with the preparation and prosecution of domestic and international patent applications. Her technical background is in the field of electrical engineering.

Before joining Quarles, Audrey gained industry experience while interning at an engineering consulting firm with its advanced mobility team, where she employed lighting analysis software and engineering design techniques to prepare optimized lighting solutions for clients. In addition, she worked as an electrical engineering intern at an electric utility company with the relay and protection team.

## Capabilities

Intellectual Property
