About Kaitlyn

Engaging, creative health and data privacy counsel to health care providers

Kaitlyn Fydenkevez uses her prior government experience to provide forward-thinking counsel to health care entities and providers of all kinds. She advises clients on compliance with state and federal health care privacy laws, including HIPAA and HITECH, as well as state, federal and international non-health specific data privacy and security issues, including those related to:

- **Internet terms and conditions**
- **Privacy policies**
- **Domestic and international general privacy laws, including GDPR and CCPA**

Prior to joining the firm, Kaitlyn spent time in both the Office of Counsel to the Inspector General (OCIG) and the Office for Civil Rights (OCR) at the U.S. Department of Health and Human Services (HHS). With her broad range of government health care experience, she helps her clients manage today's challenges while also balancing a focus on future growth.

Experience in Action

- **Creates data privacy and security compliance programs for entities of all sizes**, including developing policies and procedures, preparing workforce training and developing security reminders for compliance within evolving federal and state laws.
- **Develops responses to security incidents and breaches through all stages**, including investigation, incident response and notifications

Education and Honors

University of Connecticut
School of Law (J.D., 2015)

University of Connecticut
(B.A., 2012)

Bar Admissions

District of Columbia

Connecticut

to affected individuals and state and federal government and regulators.

- **Advises clients on matters related to mergers and acquisitions**, including due diligence review of entity privacy and security programs to determine compliance with the HIPAA, HITECH, Part 2, CCPA and other state laws governing health information.
- **Prepares and negotiates HIPAA-compliant business associate agreements.**
